PUFFER, FRANK W. The Empirical Verification of the Urban Base Multiplier: Traditional and Adjustment Process Models (Harold T. Moody, co-author) 91–98
QUINDRY, KENNETH E. A Note on City Expenditure Determinants (John T. Masten, Jr., co-author) 79–81
SCHWARTZ, DAVID S. Reply by David S. Schwartz to Kafoglis and Keig, "New Policies of the Federal Power Commission" 323–325
SEYFRIED, WARREN R. Location and the Centrality of Urban Land Value 329–333
STEVENSON, WILLIAM W. An Application of Activity Analysis to Development Planning in the Elk River Area of the Tennessee Valley (Laurence J. Mauer, co-author) 85–91
WALLACE, RICHARD L. Economic Inefficiency of Small Municipal Electric Generating Systems (Paul E. Junk, co-author) 98–104
WENDT, PAUL F. A Note on Hoyt's Presentation of the Importance of Manufacturing in Basic Employment 350–354
WILLIAMSON, ROBERT B. Simple Input-Output Models for Area Economic Analysis.333–338
YANDLE, BRUCE, JR. URBAN Renewal: The Precondition for Take-off 484–486

SUBJECT MATTER

A

Agrarian reform
land tenure systems in Latin America ...215–228
see also, Land reform; Latin American cities
Agriculture
see, Agrarian reform; Irrigation; Land reform; Land Tenure
Aid agencies in Latin America
land reform: suggested policy changes ..422–434

Area economic analysis
input-output models 333–338

C

Central cities and suburbs
analysis of economic and social disparities 345–350
see also, Central city
Central city
land use and suburban financial support.497–502
Central place analysis
transportation theory
access to market problems 23–31
relative spatial distribution factors 27–30
see also, Central cities and suburbs; Central city; Housing demand; Urban land values
City expenditure determinants
relative importance related to homogeneous population factors 79–81
see also, Central city; Shopping centers
Colombia
property tax administration in rural governments 146–152
see also, Colombia Shantytowns
Colombia Shantytowns
rural-urban migration tests 456–466
Conglomerates
see, Public Utility Holding Acts: 1940-1946; Transport investment
Corporate finance
investor theory and cost of equity capital.248–263

D

Dual pricing
case study, Southern Louisiana 338–344

E

Ecology
losses from natural hazards
adjustment and loss 386
private and public investment 388
public expenditure decisions 383–390
Economic base studies
use of location quotients 202–205
Electric generating systems
economic inefficiency of small plants 98–104
Eminent domain
equity and allocation of resources 314–322
Experimental city
Minnesota case study
characteristics and objectives 68
qualitative goals 73
strategies for development 74
see also, Housing demand; Eminent domain

F

Federal land ownership
regional dependency effect
empirical estimates 398–402
geographic incidence 394–396
implications for planning policy 402–403
Federal Power Commission
comment on policies and function 323–325

G

Harold M. Groves: Institutionalist and Humanist (A Note) 1–4

H

Homeowners inequities
government insurance proposal 404–413
Housing
housewife and working-wife comparisons 138–145
see also, Colombia Shantytowns; Negative income tax; Vacation housing
Housing demand
theory of relationships
transportation, land values, rents 153–162
see also, Economic base studies; Mortgage credit

I

Industrial development
analysis of state loans to private industries 171–180
see also, Mineral resources
Industrial location
regional analysis of lumber industries ...127–137
Interstate Commerce Commission
see, Conglomerates
Intra-urban dualism in developing economies 486–489
Irrigation
see, Ecology; Sudan

J

Journey to work
dissenting view on assumptions of trading areas 199–201
see also, Labor mobility

L

Labor mobility
regional payments adjustments proposals.467–473
Land grant subsidy
dangers examined by historical analysis
Central Oregon wagon roads 106–117
possible evils and warnings 106–112
see also, Federal land ownership
Land reform
see, Land tenure; Latin America
Land tenure
see, Agrarian reform; Land use; Latin America; Mexico
Land use
influence of improvement values: a case study 228–247
see also, Eminent domain; Federal land ownership; Latin America; San Bernardino, California
Land valuation
changes in areas in urbanization transition.32–40
see also, Eminent domain; Taxation
Latin America
see, Agrarian reform; Aid agencies in Latin America; Latin American cities
Latin American cities
case study comparisons: population densities, land values and socio-economic class 447–455
Location theory
see, Central place theory; Housing demand; Industrial development; Industrial location; Labor mobility; Locational decisions; New Towns

XUM

Locational decisions
case study of Wisconsin industries 325–328
Louisiana: case study on dual pricing 338–344

M

Metropolitan finance
state aids for public schools
the metropolitan fiscal structure 297–301
property tax rates and increase among types 398–301
Mexico
land reform and productivity 264–274
Milwaukee: case study on relocation of families 75–78
Mineral resources
shift in iron ore sources for steel industry 195–199
Mortgage credit
influence on housing demand 163–170
see also, Home-owner inequities; Industrial development; Mortgages
Mortgages
structure of interest rates on residential loans 208–213

N

Negative income tax
effect on number of substandard housing units 435–446
New towns
site selection process
construction, marketing and overhead costs 7–8
justification for doubling land costs 9
see also, Experimental city; Housing demands

O

Oligopoly theory
intermodal transport price competition analysis 474–478

P

Population studies
mobility and change: Arkansas case study 206–208
Property tax
see, Colombia; Eminent domain; Housing demand; Urban fiscal problem
Public Land Law Review Commission 394–403
Public outdoor recreation
welfare approach to resource allocation.414–422
see also, Recreation; Vacation housing
Public utilities
see, Conglomerates; Electric generating plants; Federal Power Commission; Land grant subsidy; Public Utility Holding Acts: 1940-1946; Resource allocation; Transport investment
Public Utility Holding Acts: 1940–1946
reorganization of associated electric system under bankruptcy 357–382
Public utility institutions
alternative arrangements 51–58
see also, Conglomerates

R

Railroads
see, Land grant subsidy
Recreation
see, Vacation housing
Relocation
urban renewal and expressway program: Milwaukee 75–78
see also, Eminent domain
Regional economic development
disparities in welfare and growth potential.82–85
Resource allocation
publicly-owned electric utility profits 478–484

S

San Bernardino, California
case study: land value vs. real property taxation 305–313
Shopping centers
report on operating revenues and expenses study 193–195
see also, Journey to work
Sudan
new methods in irrigation farming 286–296

T

Taxation
see, City expenditure determinants; Colombia; Land valuation; Metropolitan finance; Negative income tax; Property tax; San Bernardino, California; Urban fiscal problems
Tennessee Valley, case study in industrial development 85–91
Transport investment
diversified holding companies and railroads
see, Transport pricing and distribution efficiency
Transport pricing and distribution efficiency 181–190
see also, Oligopoly theory
Transportation company and internodal ownership 275–286

U

Urban base multiplier
empirical verification by comparable models 91–98
Urban development
see, Experimental city; Housing demand; New towns; Relocation
Urban fiscal problems
public policy: piecemeal or aggregate solutions 41–50
Urban land values
centrality and location 329–333
Urbanization
influence on land values at periphery ...489–497
see also, Experimental city; Journey to work; Land valuation; Shopping centers
Urban renewal precondition for take-off ..484–486

V

Vacation housing
missing component in urban and regional theory 118–126

W

Washington, D.C. study of land use in central city 229–247
